WEEKEND IN THE PARK-FOREST JANKOVAC

Weekend in the park-forest Jankovac

This year teachers of our school decided to visit the beautiful park-forest Jankovac. The fifth to eight graders came along. Everybody enjoyed riding in the modern buses. We sang, told jokes and played games. After a few hours, we finally came to our destination. We enjoyed watching the beautiful sights of the intact nature of fauna and flora. We saw frogs, lizards, fish, ducks and different bird types. Lakes, streams, caves, the Count Janković grave and the big waterfall left us speechless.

After sightseeing the beautiful mountain Papuk, we had enough free time to play sports. We played soccer, badminton and volleyball. This was one of the most beautiful nature trips we went on together.
